

HOW TO SAVE A LIFE

Automatic External Defibrillator – (AED)

*Business, Government, Schools
Churches, Service Clubs & Private Homes*

Initial AED Orientation and Training for your personnel - FREE

*We provide training for your company on the proper use of an AED and the initial response to Sudden Cardiac Arrest with our How to Save a Life lecture, demonstration, and “hands-on” practice. This 1 hour safety training and AED implementation training is included **FREE** with any AED purchased from Ringdahl EMS.*

*We also provide certification courses in CPR, AED, First Aid, safety training and ongoing annual inspections and retraining for your staff. Contact our office for tuitions and fees. All of our instructors are experienced medical personnel and certified **American Heart Association Instructors**. Certification courses are two year.*
